

Clubs

Last Updated: October 12, 2021

By Mr. Dykxhoorn

The final requests for club changes have happened and students are settling into their chosen clubs. So far, reviews for club periods have been very positive.

From intramurals to crafting, homework help to Nintendo, Spanish to sudoku- there is a club for everyone at TD.

Clubs @TDChristian is a new initiative that we have built into our daily schedule this year. One of the highlights/goals of our new Strategic Plan is to increase the feeling of belonging that our students experience. We strongly believe that this new initiative will help us realize this goal.

From 1:50- 2:25 every Tuesday, Wednesday, and Thursday, students take part in our Club Period. During first semester, students had a choice between over 30 different clubs that are led primarily by staff, although there are a couple of student- led clubs as well.

Closer to the start of semester two, students will have the opportunity to suggest new clubs, propose clubs they would like to lead, and finally, select 3 new clubs to take part in.

While Clubs are still a relatively new initiative here @TDChristian, the early returns/responses are extremely positive. Our hope is that we can continue to create more spaces/ clubs where students can truly belong.
