

NAME: _____

This computer-based portion of your exam is worth 20 marks. You have full access to the internet, your P drive and past work in this course from class or your ISU.

Complete a full one and two-variable statistical analysis for the data set provided entitled “Exam Stats – Computer Portion”.

A maximum of 80% will be earned if you include only:

- appropriate use of titles
- simple formatting
- 2 different graphs, with all labels
- mean, median, mode, range, standard deviation
- correlation

To begin achieving beyond an 80%:

- describe some of the trends/shapes of the data. Comment on both one and two variable data.
- include a variety of graphs
