

# **TDChristian High School Intramural Ice Hockey Safety Plan**

**2021-22 Season**

**Version 2.0 • October 12, 2021**

This plan remains in effect until replaced with an approved, updated and amended safety plan.

It is important that all participants and families understand, agree to, and comply with the following procedures that have been temporarily put in place as part of York Region's COVID-19 safety protocols for playing hockey.

1. As of November 1, 2021, all players, coaches, officials, must show proof of full vaccination to enter the facility. This includes displaying your vaccination document and ID, such as TD's student card, a library card or a health card.
2. One spectator per player is allowed in the facility to watch. All spectators must be fully vaccinated and be able to provide proof vaccination and valid ID at the arena entrance.
3. Participants must arrive no earlier than 15 minutes before the game and must leave 15 minutes after the game ends. Participants may not exit and re-enter the facility for any reason.
4. An attendance record will be kept for all games.
5. All participants must wear masks except when on the ice or on the bench. This includes the changeroom and hallways.
6. In addition to our usual non-contact rules, high fives, fist bumps and handshaking are also not allowed.
7. Participants must change in the changeroom and not in the hallways.
8. Participants must complete the usual daily COVID-19 self-screening as prescribed by the school.

If you have any questions or comments about this plan, please email [hockey@tdchristian.ca](mailto:hockey@tdchristian.ca).
