November/December

Application

- Please note that for Ontario Universities, you will receive a PIN in November, after which you can begin the application process.
- For Ontario Community Colleges, you will create your own account by selecting a username and password. Applications open in October.
- TD will send your academic records (your marks and current courses) to both OUAC and OCAS. It is your responsibility to check that they are accurate and to notify your guidance counsellor if there are errors.

When applying to a Christian and/or private university/college or out of province, you will need to apply online and inform guidance so we can send them your transcript by mail or email. *Check their individual deadlines.*

Make sure you pay by the deadlines. You can pay online using a credit card.

January/February/March

Confirmation

April/May

Acceptance

Depending on your program choices and your marks, you will hear from the colleges and universities.

Continue to visit campuses and talk to people as you think about finalizing your choices.

Check your emails frequently.

Attend information sessions if available.

Continue to work hard in your courses. Your interim marks determine acceptance (or not) and your final marks may make you eligible for scholarships. If your final marks are much lower than the midterms, you can lose your acceptance and your scholarships.

If you need reference letters, make sure you give enough time to your referee.

Make final decisions, make sure you check deadlines and accept in time.
