

Internship Block 2019-20

TDChristian High School is excited to again offer four-period Internship Blocks. They consist of two in-school credits and two co-operative education credits. Internship Block engages students in learning and helps them relate what happens in their co-op work place to their learning in school. It is for university-bound and college-bound students, as well as those who hope to do an apprenticeship. Students learn to serve others especially through their co-op placements and the related projects they complete in school.

The credits that usually make up Internship Block are:

- English (ENG3U/C, ENG4U/C))
- Technological Design (TDJ3M) or other approved credit (every year some students design their own program)
- Two co-operative education credits (one which qualifies for the TDChristian Diploma)

Grade 11 Internship students whose block includes English will fulfill the Grade 11 Perspectives requirement as they will especially look at the place of work in the light of God's Word. Mathematics and, depending on the semester, Science or English/Perspectives, are the requirements students need to fulfill in the other semester.

Grade 12 Internship Block students fulfill the Grade 12 Perspectives requirement, if English is included.

What does a typical week look like? On Monday, Wednesday and Friday students are at school under the direction of the teachers (this year it was Mr. Godber and Mr. Sjaarda). On Tuesday and Thursday students are at a co-op workplace they find.

Interested in learning more about this block? Talk to Mr. Godber, Mr. Sjaarda, or your guidance counsellor.

If you wish to apply for Internship Block, fill in the form below and return it along with your course selection sheet by the designated deadline. Write any questions/concerns on the reverse.

Name: _____ Applying for: _____ Grade 11 _____ Grade 12

#1. State the two main reasons you are interested in Internship Block.

#2. Check the areas that would interest you for a co-op job.
