

Internship Block Application 2022-23

TDChristian High School is excited to again offer Internship Blocks. It normally consists of two in-school credits and two co-operative education credits. Internship Block engages students in learning and helps them relate what happens in their co-op work place to their learning in school. It is for ALL senior students: university-bound and college-bound students, as well as those who hope to do an apprenticeship. Students learn to serve others especially through their co-op placements and the related projects they complete in school. *Students may take Internship Block more than once.*

The FOUR credits that *usually* make up Internship Block consist of an English credit, a Math credit, and two co-operative education credits (one which qualifies for the TDChristian Diploma).

NOTE: Grade 11 Internship students whose block includes English will fulfill the Grade 11 Perspectives requirement as they will especially look at the place of work in the light of God's Word. Grade 12 Internship Block students fulfill the Grade 12 Perspectives requirement, if English is included.

What does a typical week look like? On Monday, Wednesday and Friday students are at school under the direction of the teachers (this year it was Mr. Kooy and Mr. Sjaarda). On Tuesday and Thursday students are at a co-op workplace they find. Some students have begun their apprenticeships during Internship Block.

Interested in learning more about this block? Talk to your guidance counsellor.

If you wish to apply for Internship Block, fill in the form below and return it along with your course selection sheet by the designated deadline. Write any questions/concerns below.

Name: _____ Applying for: ___ Grade 11 ___ Grade 12
